(1) Avansia drivers for Avansia (Printer only, no lamination) and Avansia Premium Suite for Avansia Lamination (Printer + lamination).

(2) Drivers for MacOS are available for MacOS 10.6 to 10.11.

* Compatibility only from 21H2 version (build 22000.708) for Windows 11 and only from Windows Server 2022 version (build 20348.169) for Windows Server 2022. For lower Windows versions, some issues can occur on multiple printer detection.

** Evolis Linux drivers have been qualified on Cent OS Linux 8 distribution for RPM package and Debian GNU / Linux 10 (buster) distribution for DEB package. Other Linux distributions and ARM architecture are not supported by Evolis but installation is allowed.

*** Android compatibility concerns Evolis Print Service app (mobile app available on Google PlayStore). Contact Evolis or check Evolis website for further details about compatibility with manufacturers models and Android versions.

✓: Microsoft Hardware certification approved (Microsoft tests have been validated on this version).

✓: Linux drivers for Badgy and Edikio printers delivered upon request.
