

# Zenius

**PRINTER** 

# The Centralized Card **Production System**

The **Quantum** printer is the solution for printing and encoding cards in large volumes. It personalizes the cards front and back, in color or monochrome, with a record printing speed.

**Quantum** combines the feel of a desktop printer with the power of an industrial printer for centralized production of plastic cards in large quantities.

#### Increased productivity

- With a feed tray and stacker capacity of 500 cards each, the Quantum printer can deliver more than 1000 cards per hour in monochrome and 150 cards in color.
- Thanks to reversible encoding module (magnetic stripes, contact smart cards and contactless cards) independent from the print module, the cards are encoded and printed in a single pass.

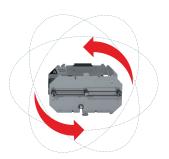

Ergonomic and wide opening systems with doors for an easy and quick card loading

#### **Enhanced versatility**

- Quantum has been designed to be **personalized on-site**, directly by the user. For instance, you can add or reverse an encoder very easily and quickly.
- The card production system adapts to your evolutive needs: single or dual sided printing, diverse encoding modules, printing options and plastic card types available.

#### **QUANTUM**

Reversible upper and lower encoding unit for magnetic stripes and contact smart cards

5136 7528 9536 7523

#### **Economic solution**

Quantum can handle large volumes of cards with very high print quality, providing a very economical alternative to industrial card printers.

EvolisBon

TRANSP@RTPASS

You can **control your costs** and produce your cards yourself instead of having to go to an outside provider.

- Interchangeable input & output hoppers (500 cards each)
- Large ribbon capacity
- Connecting panel & mounting area for users own integration of encoding units

## Main Features

#### General features

- · 2 configurations:
- Standard version without locking mechanism
- Version with centralized locking system
- · Direct-to-card dye-sublimation/ Resin thermal transfer
- · Single-sided and dual-sided printing module
- · Edge-to-edge printing
- · 300 dpi print head (11.8 dots/mm)
- · 16 MB memory (RAM) allowing two card storages (front & back)
- · Interchangeable input and output hoppers, capacity of 500 cards each (0.76 mm - 30 mil)
- · Aluminum body, black plastic covers

#### Additional encoding modules

- · Reversible upper and lower encoding unit for magnetic stripes and contact smart cards (patented)
- · HiCo/LoCo magnetic stripe encoder ISO 7811 or JIS2
- · Smart contact station ISO 7816-2
- · Connecting panel and mounting area for users own integration of encoding units
- · Encoding options:
- Smart encoding unit PC/SC, EMV 2000-1
- Contactless encoding unit -ISO14443A & B, MIFARE, DESFire, HID iCLASS
- Other types upon request

## Safety

· Centralized locking system (optional) to secure access to the whole system (incl. cards and ribbon)

## Oisplay

- · 2-line LCD display
- · Status LED for printer and encoding unit monitoring

#### Card management and specifications

- · Detachable and interchangeable card input feeder and output stacker with 500 cards capacity (0.76 mm - 30 mil)
- · Reject hopper for defective cards with a capacity of 20 cards (0.76mm - 30mil)
- · Detachable hopper (long or short doors) with a capacity of 500 cards (0.76 mm - 30 mil) as an option
- · Card types: PVC cards, composite PVC cards, PET cards, ABS cards<sup>1</sup>, special varnished cards<sup>1</sup>
- · Card format: ISO CR80 ISO 7810 (53.98 mm x 85.60 mm)
- · Thickness: 0.76mm to 1mm (30 to 40 mil)

## Additional pack offer

- · Quantum Production Pack: 1 detachable card hopper with short door, 2 cleaning rollers, 1 cleaning kit
- · Quantum Backup Pack: 1 print head, 1 reversible encoding module, 1 detachable card hopper with short door

## Printing performances<sup>2</sup>

- · Single side:
- Color (YMCKO): 150 cards/hour
- Monochrome: 1000 cards/hour
- · Dual side:
- Color (YMCKO-K): 115 cards/hour
- Monochrome: 320 cards/hour

#### Interfaces

- · USB (1.0, 1.1, 2.0, 3.0), cable supplied
- · Ethernet TCP-IP 10BaseT, 100BaseT (Traffic Led)

## © Evolis High Trust® ribbons

To maximize the quality and durability of printed cards, the lifespan of the print head and the overall printer reliability, use Evolis High Trust® ribbons.

· Ribbon saver for monochrome printing

List of ribbons available on www.evolis.com

#### Software & Applications

· CardPresso XXS for designing and printing badges. Compatible for Windows® and Mac.

OS compatibility details available on www.cardpresso.com

· Drivers for Windows®. Mac OS and Linux.

OS compatibility details available on www.evolis.com

#### Certifications and statement of compliance

- · RoHS
- · CE, FCC, VCCI, ICES
- · EAC<sup>2</sup>

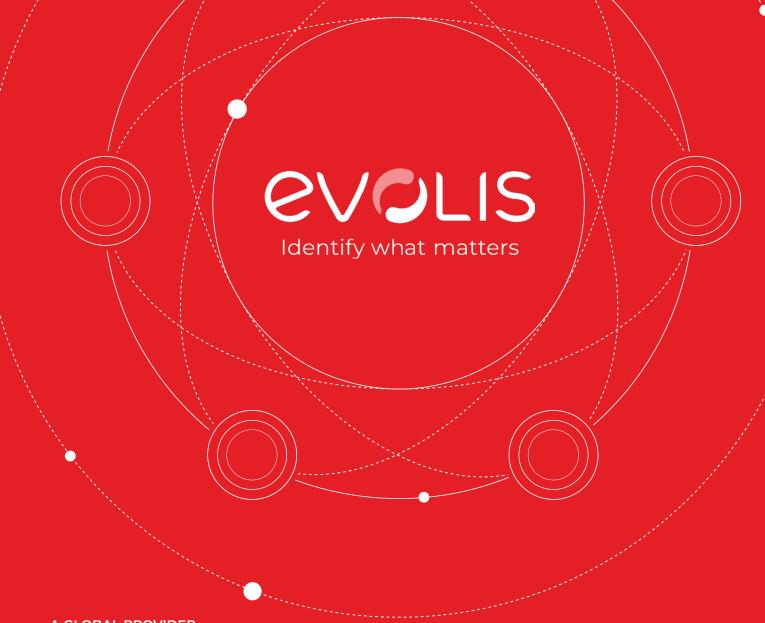

## Size and weight

- · Size (H x W x D):
- Without hoppers: 215 x 300 x 850 mm (8.46" x 11.81" x 33.46")
- With hoppers: 567 x 300 x 850 mm (22.32" x 11.81" x 33.46")
- · Weight: 21.7 kg / 47.8 lbs (18.3 kg / 40.3 lbs without hoppers)

## Warranty

- · 1-year warranty (printer and print head) limited to 500,000 insertions3
- · Warranty extension available as an option

## A GLOBAL PROVIDER OF IDENTIFICATION SOLUTIONS

- Worldwide leader in card personalization systems for decentralized issuance
- International expertise and local support through a network of 400 distributors in 140 countries
- A unique ability to meet specific customer specifications with a Project department dedicated to design and construction of tailor-made solutions
- © Evolis is ISO 9001 certified, which reflects our comprehensive approach, both in terms of quality and continuous improvement
